**A message from Jason Black**

Welcome to our 2nd edition of our monthly Black Torque edition. This email flyer is designed to be informative along with specials on parts and vehicles we have in stock. It will also include some industry information which we will aim to grow further in the future. Our aim is for this flyer to be seen as an informative, not junk.

We have finally seen a little rain which will help winter crops and hopefully give summer grasses some moisture to grow when it warms up.

The big news for the Harvey Black Group this month is our **big auction in Moree** on the 28th of August. In the auction we have **Headers, tractors, trucks, utes, tillage gear** and a large number of incidentals which include **fuel tanks, brackets, straps, spray gear, agricultural parts, exhaust mufflers**, the list is huge. The Wednesday is open for viewing and we can give full disclosure on what has been spent on the units. There is warranty available and finance on site. We have food and beverages available on site so everyone will be looked after on the day.

We have seen some challenging times over the last 12 months with the weather; budget, cattle prices slumping and the mining slow down. Hopefully with the live export now going again and some rain we will see some improvement next year for everyone. We have included some parts and truck specials for your perusal. Stay safe.

Thanks,  
Jason Black
